Akron Sewer Pipe Co.

MANUFACTURE THE

BEST SEWER PIPE IN THE WORLD!

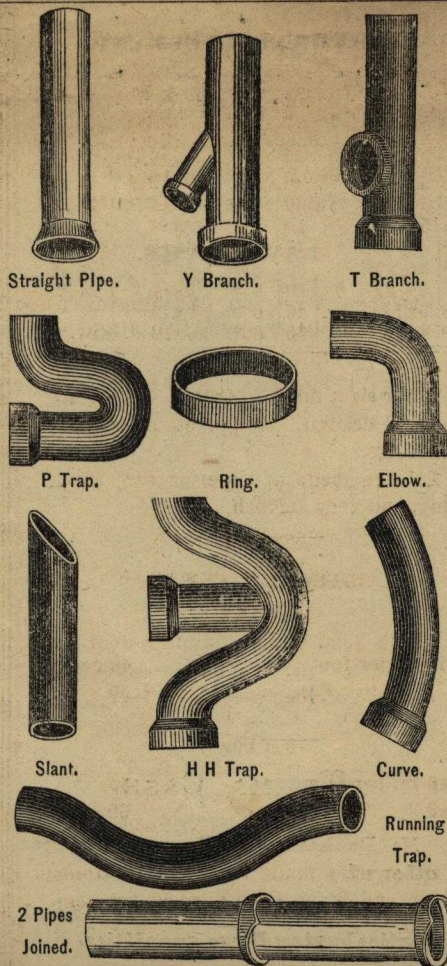

—FROM THE—

Celebrated Clay of Summit County, O.,

Which requires no Slip or other Foreign Clay to cause it to take a perfect Salt Glaze, making a thoroughly Vitriified and Compact body, as durable in any climate as glass. Its strength was tested by Hydrostatic Pressure in the city of Chicago, and by External Crushing Pressure in the city of Washington, D. C., where it was brought into direct competition with the noted Scotch and English Pipe. On both trials it was proven to be the strongest and best Pipe exhibited.

Reference as to quality is made to the City Engineers of all cities where the Pipe has been used.

Will be Sold as Low as any Sewer Pipe of Equal Quality.

HOT AND COLD AIR FLUES.

NO.	DIMENSIONS	Price per Foot	Size of Pipe Hole	Size of Register	Length of Pipe
